## **City Hosts Visioning Workshop for Clifton-Le Doux Corridor Mobility Study**

*Residents Invited to Provide Input on Transportation Safety and Access*

**Beverly Hills, CA** – The City of Beverly Hills has kicked off a Corridor Mobility Study for Clifton Way and Le Doux Road. This project will explore the feasibility of a range of traffic calming and active mobility enhancement options aimed at making residential streets more livable and improving pedestrian and bicycle connections to the future Metro D (Purple) Line Stations.

The first step in the project is to meet with stakeholders to identify a vision for the corridor and understand any issues they hope to address with a potential design. Residents are invited to participate in a Community Visioning Workshop to share their ideas for the Clifton-Le Doux corridor:

WHAT: Community Visioning Workshop (including walk and bike audits)

WHEN: Saturday, October 15, 2022 from 9:00 AM to 12:00 PM

WHERE: La Cienega Park Community Center

If stakeholders are not available to join the workshop in person, they are invited to participate virtually via the City's website [www.beverlyhills.org/cliftonledoux](http://www.beverlyhills.org/cliftonledoux) and share their experiences traveling on this corridor. Virtual workshop and audit materials will be available on October 15, 2022.

For more information, visit the City's website at [www.beverlyhills.org/cliftonledoux](http://www.beverlyhills.org/cliftonledoux) or contact the City by email at [AskPW@beverlyhills.org](mailto:AskPW@beverlyhills.org) or phone at 310-285-2467.
